# NOTICE OF STUDY COMMENCEMENT

## CLASS ENVIRONMENTAL ASSESSMENT LESLIE STREET (Y.R. 12) ROAD IMPROVEMENTS FROM WELLINGTON STREET (Y.R. 15) TO MULOCK DRIVE (Y.R. 74) TOWN OF AURORA, TOWN OF NEWMARKET

The Regional Municipality of York (York Region) has initiated a Class Environmental Assessment (EA) Study for road improvements to Leslie Street from Wellington Street to Mulock Drive to accommodate existing and future traffic requirements. This section of Leslie Street has been identified for improvements as part of York Region's 2002 Transportation Master Plan.

This study is being undertaken as a Schedule 'C' project in accordance with all requirements of the Municipal Class Environmental Assessment (October 2000, as amended in 2007). The Class EA process includes public and review agency consultation at key stages of the study in order to solicit input and comment, including two Public Consultation Centres.

The Public Consultation Centres will provide members of the public with an opportunity to review the study scope and discuss project issues, including the alternative solutions, potential environmental effects, evaluation criteria, and alternative designs. Details regarding the date, time and location of Public Consultation Centres will be published in this newspaper at the appropriate times.

### YOU ARE INVITED TO GET INVOLVED!

York Region is seeking members of the community to form a Stakeholder Group for the Leslie Street Road Improvements Class EA. The Stakeholder Group will meet at key study milestones and will provide feedback to the Study Team. If you wish to apply to be a member of the Stakeholder Group, would like to be added to the study mailing list, or have any questions or comments on the study, please visit the project website [www.lesliestretea.ca](http://www.lesliestretea.ca), or contact the Project Manager below:

**Re: Class Environmental Assessment Study  
Road Improvements to Leslie Street from Wellington Street to Mulock Drive  
Towns of Aurora and Newmarket  
File: T02/8418/Cor**

The Regional Municipality of York (York Region) is undertaking a Class Environmental Assessment (EA) along Leslie Street, in the Towns of Aurora and Newmarket. The Leslie Street Road Improvements study is being undertaken as a Schedule 'C' Class Environmental Assessment.

The purpose of the study is to determine specific road improvements to Leslie Street from Wellington Street to Mulock Drive for implementation in the Region's 10-Year Capital Construction Program. This work may involve widening of the existing roadway. A copy of the project Notice of Commencement has been included in this correspondence (which includes a map of the area) and further information can be obtained by visiting [www.lesliestrectea.ca](http://www.lesliestrectea.ca).

Currently a Stage 1 Archaeological Assessment is being conducted within the study area and the results will be shared with you in a follow-up letter.

York Region would appreciate receiving communication of any issues or concerns that your First Nation may have regarding the EA Study, including any potential impacts on First Nation's Aboriginal or Treaty Rights.

York Region will be following up this letter with a phone call to ensure you received this package and discuss any specific concerns of your First Nation and community members. We will continue to update you on the status of the EA, unless directed otherwise in writing by an official representative of your First Nation.

I appreciate you taking the time to review this correspondence. Please contact me at 1-877-464-9675, extension 3103 to discuss this project in further detail, or to find out more information.

Sincerely,

Stephen Hollinger, EIT  
Design Technologist

York Region is seeking members of the community to form a Stakeholder Group for the Leslie Street Road Improvements Class EA. The Stakeholder Group will meet at key study milestones and will provide feedback to the Study Team. If you wish to apply to be a member of the Stakeholder Group, would like to be added to the study mailing list, or have any questions or comments on the study, please visit the project website [www.lesliestreetea.ca](http://www.lesliestreetea.ca), or contact the Project Manager below:

**Re: Class Environmental Assessment Study  
Road Improvements to Leslie Street from Wellington Street to Mulock Drive  
Towns of Aurora and Newmarket  
File: T02/8418/Cor**

The Regional Municipality of York (York Region) is undertaking a Class Environmental Assessment (EA) along Leslie Street, in the Towns of Aurora and Newmarket. The Leslie Street Road Improvements Study is being undertaken as a Schedule 'C' Class Environmental Assessment (October 2000, as amended in October 2007).

The purpose of the study is to determine specific road improvements to Leslie Street from Wellington Street to Mulock Drive for implementation in the Region's 10-Year Capital Construction Program. A copy of the project Notice of Commencement has been included in this correspondence and further information can be obtained by visiting [www.lesliestreeta.ca](http://www.lesliestreeta.ca).

You are an important stakeholder and we would like to have your input as we proceed with the study. We will be sending you future letters over the course of this study, including invitations to attend two Public Consultation Centres, and a Notice of Study Completion inviting you to review the Environmental Study Report (ESR). If you do not want to receive additional correspondence on this project, please contact us to have your name removed from the contact list.

In addition, we are looking for participants to be part of our Technical Advisory Committee (TAC). The TAC will meet at least three times over the course of the next year to provide feedback and suggestions on the possible alternatives, selection criteria, and final design. Please contact us if you are interested in becoming part of this group. **Applications for the TAC will be accepted until August 15, 2008.**

I appreciate you taking the time to review this notice. Please contact me at 1-877-464-9675, Extension 3103 if you wish to discuss this project in further detail or require more information.

Sincerely,

Stephen Hollinger, EIT

  - Residents and Agencies

# NOTICE OF PUBLIC MEETING

## CLASS ENVIRONMENTAL ASSESSMENT LESLIE STREET (Y.R. 12) ROAD IMPROVEMENTS FROM WELLINGTON STREET (Y.R. 15) TO MULOCK DRIVE (Y.R. 74) TOWN OF AURORA AND TOWN OF NEWMARKET

The Regional Municipality of York (York Region) has initiated a Class Environmental Assessment (EA) Study for road improvements to Leslie Street from Wellington Street to

Mulock Drive to accommodate existing and future traffic requirements. This section of Leslie Street has been identified for improvements as part of York Region's 2002 Transportation Master Plan.

This study is being undertaken as a Schedule 'C' project in accordance with the requirements of the Municipal Class Environmental Assessment (October 2000, as amended in 2007).

### YOU ARE INVITED TO GET INVOLVED!

Residents and other stakeholders are being consulted throughout the project. The first point of contact was a newspaper advertisement and circulation of a Notice of Study Commencement in July. York Region will now host a Public Consultation Centre (PCC) to present the project details, including the problem being addressed, the alternatives being considered, the recommended solution, the project schedule and the next steps. The meeting is scheduled as follows:

**Wednesday, November 26**  
**Newmarket High School Cafeteria**  
**505 Pickering Crescent, Newmarket**

**Open House: 6:00 - 7:00 p.m.**  
**Presentation: 7:00 - 7:30 p.m.**  
**Questions and Answers: 7:30 - 8:30 p.m.**

This is your chance to have your comments heard and to meet with project staff.

If you are unable to attend the meeting and would like to receive a copy of the presentation, or if you have any questions or comments on the study, please visit the project website [www.lesliestreeta.ca](http://www.lesliestreeta.ca), or contact the Study Manager below:

**Re: Class Environmental Assessment Study**  
**Road Improvements to Leslie Street from Wellington Street to Mulock Drive**  
**Towns of Aurora and Newmarket**  
**File: T02 (C), 8418**

The Regional Municipality of York (York Region) has initiated a Class Environmental Assessment (EA) Study for road improvements on Leslie Street from Wellington Street to Mulock Drive in order to accommodate existing and future traffic requirements. This section of Leslie Street has been identified for improvements as part of York Region's 2002 Transportation Master Plan.

This study is being undertaken as a Schedule 'C' project in accordance with the requirements of the *Municipal Class Environmental Assessment* (October 2000, as amended in 2007).

First Nation communities and other stakeholders are being consulted throughout the project. The first point of contact was a circulation of a Notice of Study Commencement to you in July as well as newspaper advertisement to the public.

York Region will now host a Public Consultation Centre (PCC) to present the project details, including the problem being addressed, alternatives under consideration, the recommended solution, the project schedule and the next steps. This meeting is scheduled as follows:

**Wednesday, November 26**  
**Newmarket High School Cafeteria**  
**505 Pickering Crescent, Newmarket**

**Open House: 6:00 - 7:00 p.m.**  
**Presentation: 7:00 - 7:30 p.m.**  
**Questions and Answers: 7:30 - 8:30 p.m.**

York Region would like to take this opportunity to invite you to this Consultation Centre or, alternatively, we would be happy to meet with your First Nation to present these materials.

**A Stage 1 Archaeological Assessment has been completed within the Study Area.** The results indicate that there are a total of 14 archaeological sites registered within 2 km of the Study Area, and only 2 sites are immediately adjacent to the Leslie Street right-of-way. Neither site requires further archaeological assessment or mitigation. In addition, there are several areas adjacent to the Leslie Street right-of-way that remain undisturbed and may contain archaeological potential. **A Stage 2 Archaeological Assessment shall be undertaken if the recommended improvement impacts lands deemed to have archaeological potential.**

We will continue to update you on the status of the EA, unless directed otherwise in writing by an official representative of your First Nation.

I appreciate you taking the time to review this notice. If you are unable to attend the meeting and would like to receive a copy of the presentation, or should you have any questions or comments regarding the study, please contact me at 1-877-464-9675, Extension 3103 or via E-mail at [stephen.hollinger@york.ca](mailto:stephen.hollinger@york.ca).

Additional information is also provided in the project website [www.lesliestreetea.ca](http://www.lesliestreetea.ca).

Sincerely,

Stephen Hollinger, EIT  
Design Technologist
